Andalusia Academy Course Catalogue: Software Development

Synthetic demonstration data. Courses, fees, schedules, instructors and offers are illustrative and are not real Andalusia Academy information.

This catalogue lists the Software Development courses of Andalusia Academy (Cairo campus (Nasr City)). Fees are in EGP. Online courses use: Live online classes on the academy's virtual classroom with recorded sessions.

Courses in this catalogue

- SW-101 Web Development Fundamentals (Beginner, Online)
- SW-201 Full Stack Web Development with React and Node.js (Intermediate, Offline (on campus, Cairo))
- SW-301 Backend APIs with Python and Django (Advanced, Online)

1. Web Development Fundamentals

Course ID: SW-101
Department: Software Development
Industry: Software and web
Level: Beginner
Delivery mode: Online
Language of instruction: Arabic and English
Duration: 10 weeks (60 hours)
Time commitment: 6 hours per week
Fee (EGP): 5500
Payment options: Two payments of 2750 EGP
Certificate: Andalusia Academy certificate of completion
Accreditation: Not accredited (certificate of completion only)
Country: Egypt
Data status: Synthetic demonstration data
Updated: 2026-10-27

1.1 Course Description

Build and publish responsive websites with HTML, CSS and JavaScript, using Git for version control.
Target audience: Beginners who want to start a career in web development.

1.2 Entry Requirements and Prerequisites

Entry requirements: No programming experience required. Basic computer skills.
Prerequisite courses: None

1.3 Learning Outcomes

- Structure pages with semantic HTML
- Style responsive layouts with CSS flexbox and grid
- Add interactivity with JavaScript
- Publish a portfolio site using Git and GitHub

1.4 Topics Covered

- HTML structure
- CSS layout and responsive design
- JavaScript basics
- The DOM and events
- Git and GitHub
- Portfolio project

1.5 Skills Taught

- HTML
- CSS
- JavaScript
- Git

1.6 Career Outcomes

- Junior front-end developer
- Foundation for Full Stack Web Development

1.7 Schedule and Intakes

- Starts 2026-11-10: Tuesday and Thursday, 7:00-10:00 pm (Cairo time); 30 seats

1.8 Instructors

- Mariam Saleh, Full Stack Instructor (8 years of experience): HTML, CSS, JavaScript, React, Node.js

2. Full Stack Web Development with React and Node.js

Course ID: SW-201
Department: Software Development
Industry: Software and web
Level: Intermediate
Delivery mode: Offline (on campus, Cairo)
Language of instruction: English with Arabic support
Duration: 16 weeks (128 hours)
Time commitment: 8 hours per week
Fee (EGP): 16500
Payment options: Four payments of 4125 EGP
Certificate: Andalusia Academy certificate of completion
Accreditation: Not accredited (certificate of completion only)
Country: Egypt
Data status: Synthetic demonstration data
Updated: 2026-10-27

2.1 Course Description

Build complete web applications: a React front end, a Node.js and Express API, and a database, deployed to the cloud.
Target audience: Learners who know HTML, CSS and JavaScript and want to become full stack developers.

2.2 Entry Requirements and Prerequisites

Entry requirements: Working knowledge of HTML, CSS and JavaScript (SW-101 or equivalent).
Prerequisite courses: SW-101 Web Development Fundamentals

2.3 Learning Outcomes

- Build component-based interfaces with React
- Design REST APIs with Node.js and Express
- Store data in MongoDB and PostgreSQL
- Deploy and test a full stack application

2.4 Topics Covered

- Modern JavaScript
- React components and state
- Node.js and Express APIs
- Databases
- Authentication
- Deployment and capstone

2.5 Skills Taught

- React
- Node.js
- Express
- MongoDB
- PostgreSQL

2.6 Career Outcomes

- Full stack developer

- Front-end or back-end developer

2.7 Schedule and Intakes

- Starts 2026-12-05: Saturday and Monday, 6:00-10:00 pm; 20 seats

2.8 Instructors

- Mariam Saleh, Full Stack Instructor (8 years of experience): HTML, CSS, JavaScript, React, Node.js

- Ahmed Farouk, Backend and Cloud Instructor (11 years of experience): Python, Django, REST APIs, Docker, cloud deployment

3. Backend APIs with Python and Django

Course ID: SW-301
Department: Software Development
Industry: Software and web
Level: Advanced
Delivery mode: Online
Language of instruction: English
Duration: 10 weeks (70 hours)
Time commitment: 7 hours per week
Fee (EGP): 12000
Payment options: Three payments of 4000 EGP
Certificate: Andalusia Academy certificate of completion
Accreditation: Not accredited (certificate of completion only)
Country: Egypt
Data status: Synthetic demonstration data
Updated: 2026-10-27

3.1 Course Description

Design secure, tested and scalable backend services with Django and Django REST Framework, then containerise and deploy them.
Target audience: Developers with programming experience who want to specialise in backend engineering.

3.2 Entry Requirements and Prerequisites

Entry requirements: Experience with at least one programming language and basic databases. Python experience recommended.
Prerequisite courses: SW-201 Full Stack Web Development with React and Node.js

3.3 Learning Outcomes

- Design REST APIs with Django REST Framework
- Model relational data and write efficient queries
- Write automated tests and secure endpoints
- Containerise and deploy services with Docker

3.4 Topics Covered

- Django fundamentals
- Data modelling and ORM
- Django REST Framework
- Authentication and security
- Testing
- Docker and deployment

3.5 Skills Taught

- Python
- Django
- REST APIs
- Docker
- Testing

3.6 Career Outcomes

- Backend developer
- API engineer

3.7 Schedule and Intakes

- Starts 2027-02-01: Monday and Wednesday, 7:00-10:30 pm (Cairo time); 20 seats

3.8 Instructors

- Ahmed Farouk, Backend and Cloud Instructor (11 years of experience): Python, Django, REST APIs, Docker, cloud deployment
